CORPORATE PROFILE

JIYA Intelligent Technology is a professional solution provider specializing in integrated outdoor power and water pedestals.

Our founder and team have over 20 years of industry experience, offering highly customized solutions for RV campsites, marinas, and private villas.

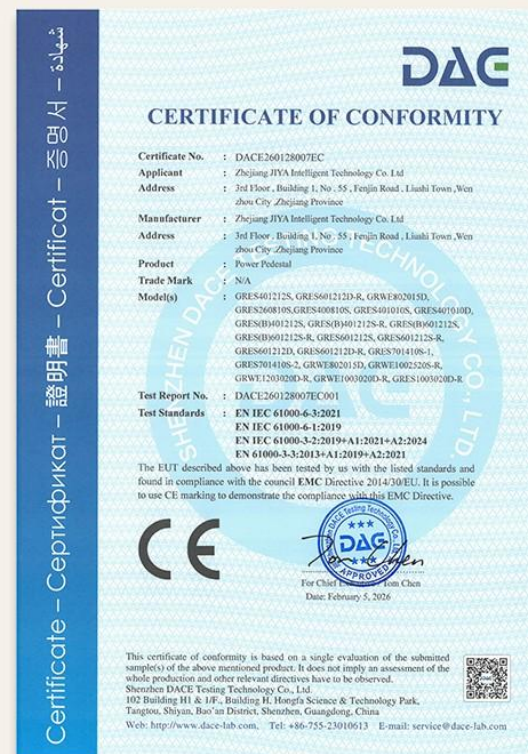

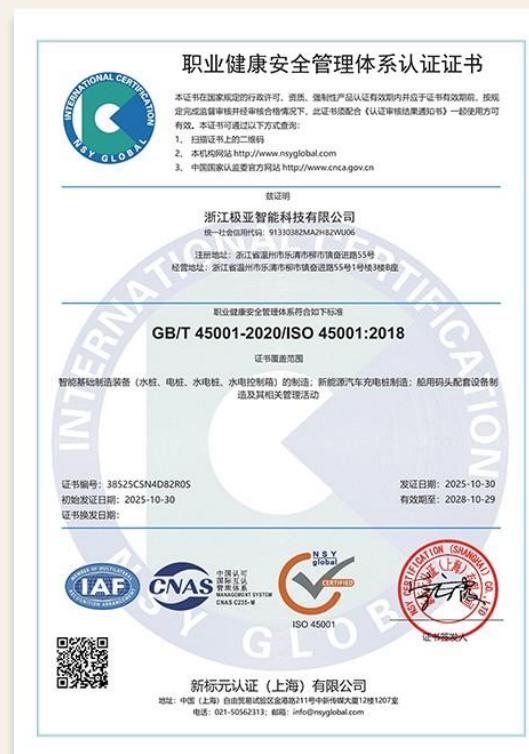

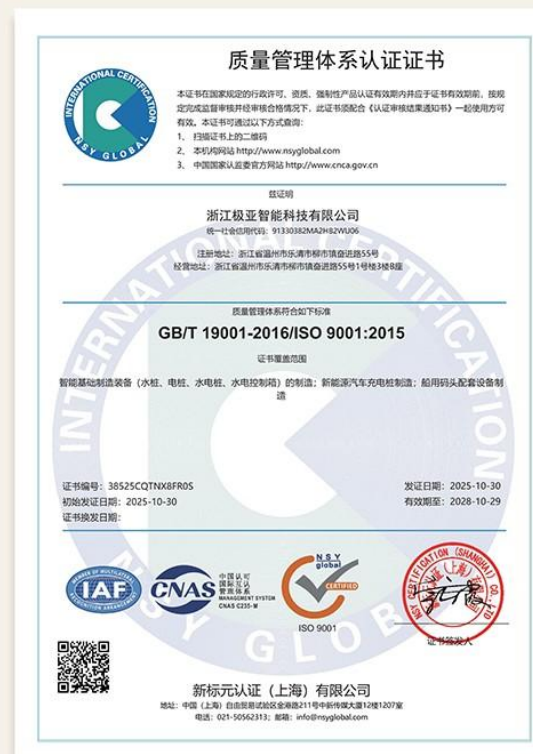

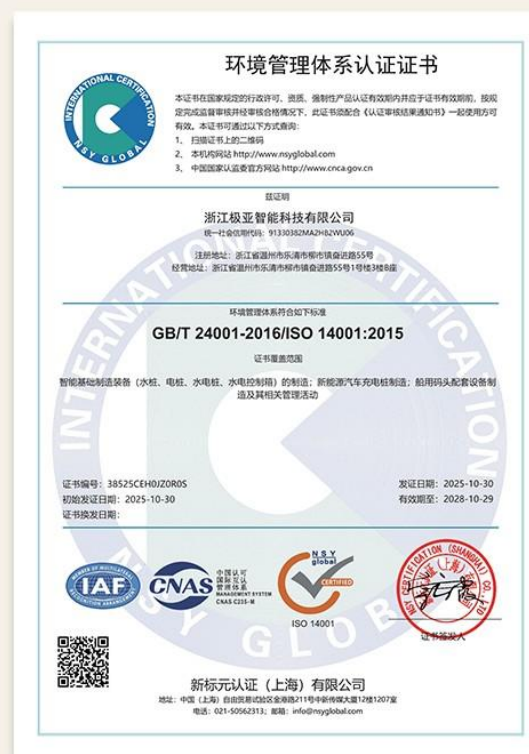

With a skilled technical team including structural, electrical, and software engineers, we support full OEM and ODM services. Customers can customize enclosure materials, colors, socket types, water outlets, lighting, metering, and various protection features.

Our product range includes power pedestals, combined water and power pedestals, and faucet columns. Platforms like “E-Chongxing” and “Smart Garden Control” enable intelligent water and power management.

We offer component options from brands like Siemens, Schneider, CHINT, and Hubbell. All components meet local safety standards and are UL and CE certified.
